ISSUE NAME: John P. Saad &amp; Sons, Inc.

16974

BASIN: Nashville

EXHIBIT

6

COUNTY: Davidson and Rutherford

CLASS: Groundwater Contamination

LEAD PERSON: Donald R. Rima - Water Quality Control

EMQA PERSON: Terry Cothron

PROBLEM DESCRIPTION: Case of chemical dumping into sink holes in Davidson County on Trousdale Drive and Rutherford County in Silver Springs Community in 1978 and 1979. The Davidson County dumping caused pollution of a spring on the Croft Farm owned by the Cumberland Museum. This property will be turned into a park in the future. The Rutherford County dumping caused pollution of about thirty private wells and people were put out of a water supply. Also, a million gallon tank on the Smyrna Airport property still contains chemicals placed there by Saad.

## CORRECTION OBJECTIVE:

- 1) Prosecute for violation of the Law
- 2) Clean-up & dispose of materials in Smyrna Airport tank
- 3) Investigate possibility of clean-up of Trousdale site and Croft Spring (L & N Railroad's Radnor Yard may also be polluting spring)
- 4) Further clean-up of Rutherford County site and follow-up survey of area groundwater and wells
- 5) Determine present activities of Saad operation and other possible dump sites.
